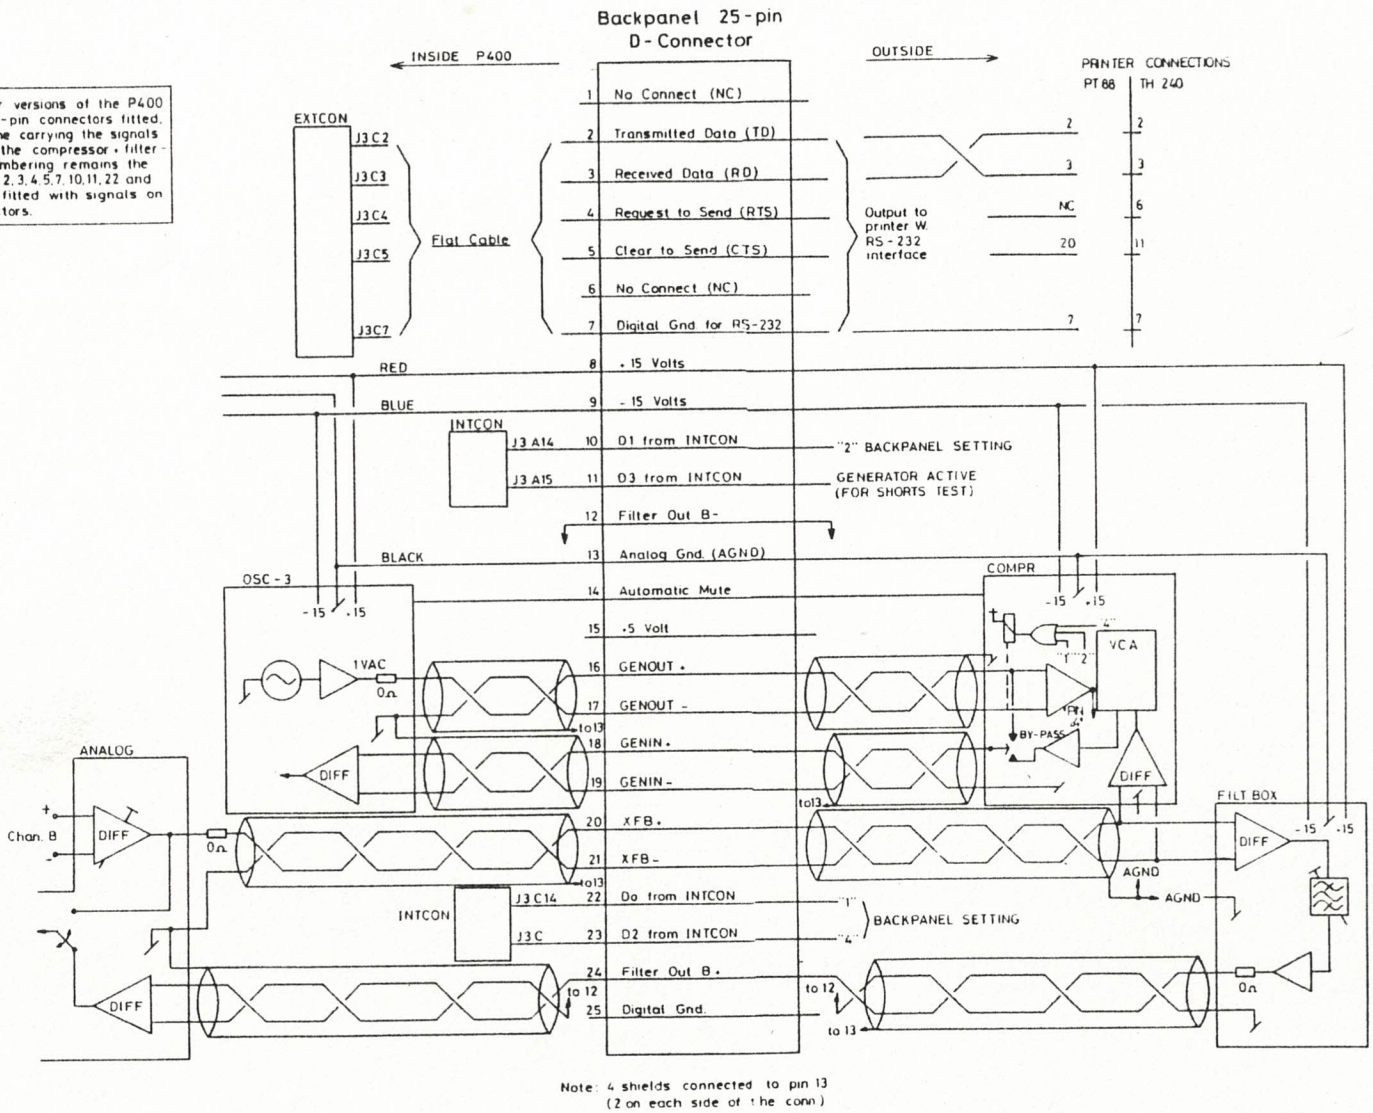
Backpanel 25-pin D-Connector

NOTE: Newer versions of the P400 has two 25-pin connectors fitted, the lower one carrying the signals etc. to/from the compressor + filter box. Pinnummbering remains the same. Pins 2, 3, 4, 5, 7, 10, 11, 22 and 23 will be fitted with signals on both connectors.



Note: 4 shields connected to pin 13 (2 on each side of the conn.)
